### Business Care Brings Nervous Wear

The petty cares of business life wear away nervous strength, and this applies as much to the clerk at the desk as to the manager in his luxurious office. A thousand little details of duty requiring attention exhaust the nervous energy and cause one to fret over trifling things that would not re-ceive a second thought under conditions of perfect health.

Nervous fretful persons of either sex are usually poorly nourished and to is exhibited, being a drop of 1.75 in all such cases the surest and quickest permanent relief is to be had by the Hawaiian Sugar from last previous

### FREAR PREPARING TO FILL VACANCIES

Several appointments of Territorial officials are to be made in the very near future. Governor Frear, while ! not naming any of the offices involved, said today that a number of vacancies will be filled within the next few weeks. It is understood that one of these will be the successor to Marston Campbell, superintendent of public works, whose resignation was placed in the Governor's hands some time before the latter went to the mainland. At that time Frear announced that he expected to attend to that vacancy as soon as he returned. Meantime, Campbell is continuing to act, until his successor is appointed and qualifies for the office. The Governor has given no intimation concerning the identity of the next superintendent in that department,

That part of the recent crop of college graduates which landed jobs has begun to discard the feeling of superiority to some extent.
